

ABOUT ORIGINAL SIN...

Aboriginal... original... original sin... understand that original sin is not the fall from Grace; it is not the result of your parent having intercourse. It is the mistake -- sin -- the mistake about your origin. Sin means to miss the mark, to not quite grasp what your origin is.

Understand that your origin is not off in the past. Your origin is your Source. Your Source is the Father. The Father is a living God, a living Movement of conscious intelligent Creation. And therefore, you are the current evidence of a current Life Principle--God. Your Source is current, causing you to be forever as perfectly new as the Father is Being. The dictum of the Father is, "Behold, I make all things new." That is what the Movement of Creation is. And nothing becomes old. Nothing that is Created moves into the past; it is forever renewed, if you will, and therefore forever new.

Your origin is God NOW. You, the world, the universe were not created millions of years ago like some perpetual motion machine that now sits there and runs. Creation is NOW. And that is why you do not have to recapture virtue that has been lost in the past, because your virtue is derived from the Father in this instant. And the Father has not lost his virtue. I will say the Father/Mother has not lost His/Her virtue, and therefore you have not lost yours. And that is why going back to square one is always a matter of going back to innocence and purity now. That's the end of the answer.
