

GOD NEVER GAVE YOU THE CAPACITY TO THINK...

That's not the function of Mind. The function of Mind is consciousness, awareness, the unlimited experience of Creation – of observation of Creation – of allowing Creation to register and recognize it for what it is.

Now that's your normal divine state. That's what opens up to you and is revealed to you when you engage in the holy instant by becoming still and enquiring, "What is the truth here?" You see? And in the absence of thinking, pure conscious awareness of the only thing there is to be aware of – God's Creation – unfolds to you. Its uncovered and illuminated to you. And you experience without thought processes the Meaning of it all.

~Raj/JESUS
