

LET'S BE CLEAR...."MAN IS NOT MATERIAL...HE IS SPIRITUAL"

Man is not material," it has been said, "he is Spiritual." Body is not material; it is Spiritual. Universe is not material; it is Spiritual. Matter is not material; it is pure Spirit, and needs to be considered in that light.

To reconsider "matter" in this way is going to be the one most significant shift in perception that will promote Awakening. And so everyone must stop denying matter, must stop denying objects, because "they're matter," and embrace the objects because they are Spirit, you see, including the body, including the shirt on your body's back, or the dress.
